Over its forty-year history, Daico has developed a broad range of IF/RF and Microwave Control Products, Amplifiers and Subassemblies operating from DC to 18GHz. It provides the Defense, Aerospace and other high-end Electronic Industries with custom designed products to meet ever-increasing requirements.

From commercial space to advanced wireless applications, our custom high-reliability products are integral to the complex operations of major Satellite, Radar, Navigation, Communications, Electronics Warfare, and Missile Systems Applications.

Daico offers a broad range of products operating from DC to 18 GHz. Daico is your source for custom solutions in IF/RF and Microwave Frequencies for Amplifiers, Control Products and Multi-Function Assemblies. We design, build, and test products specifically to your requirements.
